Our Ideology

Mooble House,

- Connecting people with nature.
- Encourages people to be more nature friendly.
- Produced by considering the needs, habits and wishes of the user and is open to continuous development.
- Aims to provide a comfortable experience to its users with the principle of sustainability at every step from design to production, from material procurement to furniture selection.
- Produced with durable, long-lasting building materials, taking into account the difficult conditions of nature. All components are of high quality standards.
- User comfort and functional design is the priority. Comfort conditions are created based on empathy and experience.
- Design and production process is completed in accordance with International norms.
- A lean and minimalist design philosophy has been adopted.
- Users can live with high comfort standards regardless of location and seasons.

About Us

- We have the capacity to produce 4,000 tiny houses per year with our 11,000 m² closed and 20,000 m² open production area.
- We design and manufacture Mooble House in accordance with industry principles, with our team which consists of different design and engineering disciplines.
- Mooble House maintains its production under its own O2 Europe Type Approval Certification.
- Mooble House products are produced in accordance with the 2018/858 Trailer regulations and are suitable for towing on all European roads.

Models

Mooble House products are produced in compliance with road regulations.

Mo.1

Mo.1 635

Length: **6.35 m** Width: **2.55 m** Capacity: **4**

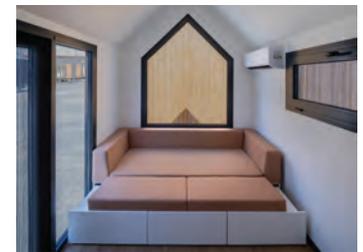

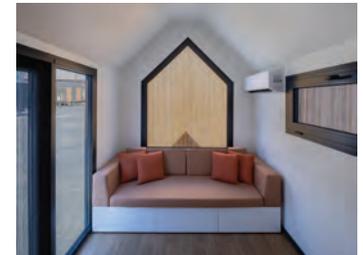

General Information

Mo.1 635L Mooble Tiny House model combines living and sleeping areas within this stunning single towable unit built on an AL-KO twin axle chassis.

As a result of its ergonomic loft floor located above the kitchen and washroom area, you can enjoy a sky view through the day, or stargaze at night from this cleverly designed bed space.

In essence this 6.35 meters, 4 berth model offers a functional and compact solution to its owner and guests.

- Berth: 4
- Length: 7.85m (25.75 ft)
- Body Length: 6.35m (20.84 ft)
- Body Width: 2.5m (8.21 ft)
- Height: 3.9m (12.8 ft)
- Weight: 3400kg (May differ with options)

Mo.1 635

Mo.1 635 Loft

Mo.2

Mo.2 675 **Special Edition**

Length: **6.75 m** Width: **2.55 m** Capacity: **4**

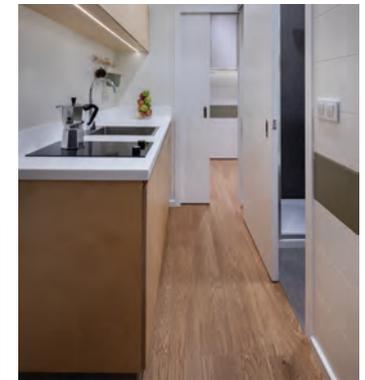

General Information

The Mo.2 675 Highline Mooble Tiny House models sleeping and living areas are designed as separate spaces. The continuity of the furniture with its ability to transform into different functions are adopted in the design philosophy.

Thanks to the folding wall bed in the sleeping area, when not in use, a new space is created for use as you wish. The furniture, which is used as a fixed desk in the living area, also contains storage areas and turns into a dining table when opened up.

This model is 6.75 meters long and is suitable for use by up to 4 people.

- Berth: 2 – 4
- Length: 8.25m (27.1 ft)
- Body Length: 6.75m (22.2 ft)
- Body Width: 2.5m (8.21 ft)
- Height: 3.8m (12.47 ft)
- Weight: 3480kg (May differ with options)

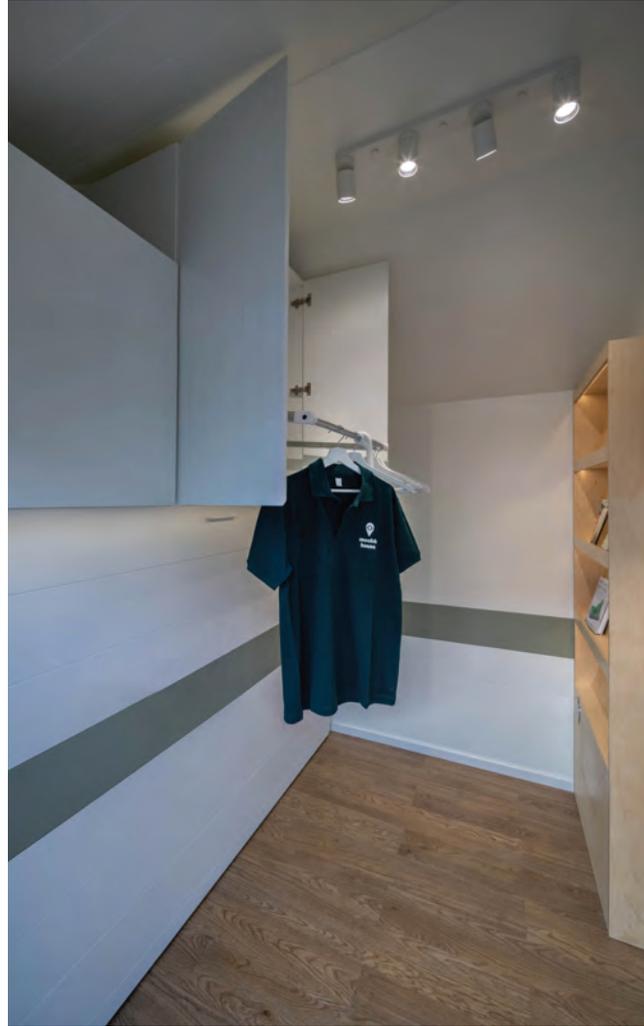

Mo.2 675

Mo.2 675

Mo.2

Mo.2 675V

Length: **6.75 m** Width: **2.55 m** Capacity: **2**

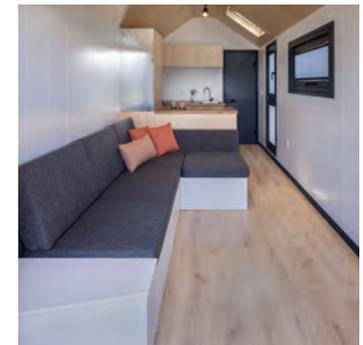

General Information

The Mo.2 675V Mooble Tiny House model is a two berth open plan variation of the standard highline at 6.75m long, also built on a twin axle AL-KO chassis, offering a great abundance of natural light through the Velux roof window (optional), and rear patio doors which also create a stunning focal point.

The kitchen area includes a sink, two burner hob, storage, and fridge, meanwhile the washroom offers a shower, sink and toilet.

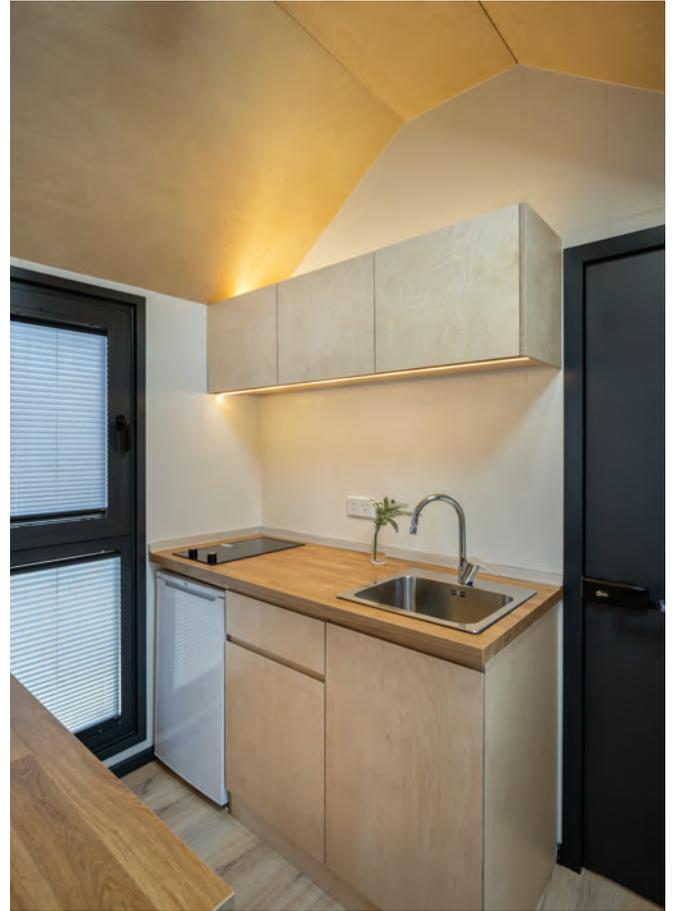

This Mo.2 675V body length is 6.75 meters and is suitable for use by up to 2 people.

- Berth: 2
- Length: 8.25m (27.07 ft)
- Body Length: 6.75m (22.15 ft)
- Body Width: 2.5m (8.21 ft)
- Height: 3.8m (12.47 ft)
- Weight: 3250kg (May differ with options)

Mo.2 675V

Mo.4

Mo.4 450 Home Office

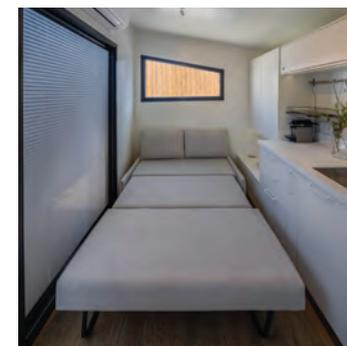

Length: **4.50 m.** Width: **2.55 m.** Capacity: **2**

General Information

The Mo.4 450S Tiny Mooble office is an alternative version of the standard Highline addition providing an ideal workspace.

This Mooble Tiny House 4.5m model offers a great space to work with the added benefits of a kitchenette, including two burner hob, sink and an abundance of storage, plus a washroom with shower, sink & toilet. The two person sofa bed in the living area, makes the Mo.4 450S an ideal addition to a garden space as an extra room for your home.

- Berth: 2
- Length: 6m (19.69 ft)
- Body Length: 4.5m (14.77 ft)
- Body Width: 2.5m (8.21 ft)
- Height: 3.5m (11.49 ft)
- Weight: 2550kg (May differ with options)

Mo.4 450

Mo.5

Mo.5 450

Length: **4.5 m** Width: **2.55 m** Capacity: **4**

General Information

The Mo.5 450 Mooble Tiny House is designed for those who seek a compact solution, for example, an extra living space in your garden or driveway. With a wooden clad exterior on the sides and metal on the front and rear, giving it an ultra modern look.

Thanks to its functional design, four people can be accommodated in a minimalistic 4.5 meter model with thanks to the mezzanine floor above the kitchen and washroom areas. The kitchen has a two burner electric hob, sink and fridge, additionally the washroom has a shower, sink and toilet.

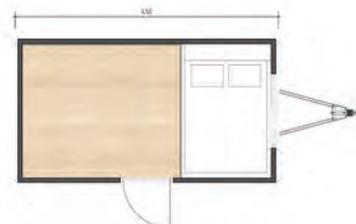

- Berth: 4
- Length: 6m (19.69 ft)
- Body Length: 4.5m (14.77 ft)
